

General Assembly

**Substitute Bill No. 6526**

January Session, 2013

**AN ACT CONCERNING CHILDREN'S PRODUCTS AND CHEMICALS  
OF HIGH CONCERN.**

Be it enacted by the Senate and House of Representatives in General Assembly convened:

1 Section 1. (NEW) (*Effective from passage*) For purposes of this section  
2 and sections 2 to 8, inclusive:

3 (1) "Chemical" means (A) a substance with a distinct molecular  
4 composition, or (B) a group of structurally-related substances.  
5 "Chemical" includes the breakdown products of the substance or  
6 substances that form through decomposition, degradation or  
7 metabolism;

8 (2) "Chemical of high concern to children" means a chemical  
9 identified by the Commissioner of Public Health pursuant to section 2  
10 of this act;

11 (3) "Children's product" means a consumer product designed or  
12 intended primarily for children under twelve years of age, including,  
13 but not limited to, clothing, baby products, toys, car seats, personal  
14 care products and any consumer product containing a chemical of high  
15 concern that when used or disposed of will likely result in a child  
16 twelve years of age or younger, or a fetus, being exposed to such  
17 chemical. "Children's product" does not include over-the-counter  
18 drugs, prescription drugs, food, dietary supplements, packaging,

19 medical devices and products that are both a cosmetic and a drug  
20 regulated by the federal Food and Drug Administration. A product  
21 label that includes usage instructions for a product that applies to  
22 children does not in and of itself establish that the product is a  
23 children's product;

24 (4) "Consumer product" means any item sold for residential or  
25 commercial use, including any component parts and packaging, that is  
26 sold for: (A) Use in a residence, child care facility, licensed pursuant to  
27 section 17a-145 of the general statutes, or school, as defined in  
28 subsection (g) of section 10-233a of the general statutes; or (B) an  
29 outdoor residential use if any child twelve years of age or younger  
30 may have direct contact with the item. "Consumer product" does not  
31 include (i) a food or beverage or an additive to a food or beverage, a  
32 tobacco product or a pesticide regulated by the United States  
33 Environmental Protection Agency, (ii) a drug or biologic regulated by  
34 the United States Department of Health and Human Services or federal  
35 Food and Drug Administration or the packaging of a drug or biologic  
36 regulated by the federal Food and Drug Administration if the  
37 packaging is also regulated by the federal Food and Drug  
38 Administration, or (iii) an item sold for outdoor residential use that  
39 includes composite material made from polyester resins;

40 (5) "Distributor" means a person who sells consumer products to  
41 retail establishments on a wholesale basis;

42 (6) "Intentionally-added chemical" means a chemical that was added  
43 during the manufacture of a product or product component to provide  
44 a specific characteristic, appearance or quality, or to perform a specific  
45 function;

46 (7) "Manufacturer" means any person who manufactured a final  
47 consumer product or whose brand name is affixed to the consumer  
48 product. In the case of a consumer product that was imported into the  
49 United States, "manufacturer" includes the importer or first domestic  
50 distributor of the consumer product if the person who manufactured

51 or assembled the consumer product or whose brand name is affixed to  
52 the consumer product does not have a presence in the United States;

53 (8) "Priority chemical" means a chemical identified by the  
54 Commissioner of Public Health that is known, on the basis of credible  
55 scientific evidence, to: (A) Harm the normal development of a fetus or  
56 child or cause other developmental toxicity; (B) cause cancer, genetic  
57 damage or reproductive harm; (C) disrupt the endocrine system; (D)  
58 damage the nervous system, immune system or organs or cause other  
59 systemic toxicity; (E) be persistent, bioaccumulative and toxic; or (F) be  
60 very persistent and very bioaccumulative;

61 (9) "Very bioaccumulative" means having a bioconcentration factor  
62 or bioaccumulation factor equal to or greater than five thousand, or  
63 having a log Kow greater than 5.0; and

64 (10) "Very persistent" means having (A) a half-life in soil or  
65 sediment of greater than one hundred eighty days; or (B) a half-life  
66 equal to or greater than sixty days in water or evidence of long-range  
67 transport.

68 Sec. 2. (NEW) (*Effective from passage*) (a) The Commissioner of Public  
69 Health, in consultation with the Commissioner of Energy and  
70 Environmental Protection and the Commissioner of Consumer  
71 Protection, shall create and maintain a list of priority chemicals that are  
72 of high concern to children after considering a child's or developing  
73 fetus's potential for exposure to each chemical. Not later than January  
74 1, 2014, and every two years thereafter, said commissioners shall  
75 identify two or more chemicals for inclusion on such list. Said  
76 commissioners may include chemicals that (1) are listed on the State of  
77 Maine Department of Environmental Protection's Chemicals of High  
78 Concern list and the State of Washington Department of Health's  
79 Chemicals of High Concern for Children list, or (2) meet one or more  
80 of the following criteria: (A) The chemical has been found through  
81 biomonitoring studies that demonstrate the presence of the chemical in  
82 human umbilical cord blood, breast milk, urine or other bodily tissues

83 or fluids; (B) the chemical has been found through sampling and  
84 analysis to be present in household dust, indoor air, drinking water or  
85 elsewhere in the home environment; or (C) the chemical has been  
86 added to or is present in a consumer product used or present in the  
87 home.

88 (b) Said commissioners shall review and revise the list of priority  
89 chemicals of high concern at least every two years and shall consider  
90 adding chemicals that meet the criteria set forth in subdivisions (1) and  
91 (2) of subsection (a) of this section.

92 Sec. 3. (NEW) (*Effective from passage*) Not later than one year after a  
93 chemical is placed on the list of priority chemicals in accordance with  
94 subsection (a) of section 2 of this act, a manufacturer of a children's  
95 product whose product contains such chemical, or a trade organization  
96 on behalf of its member manufacturers whose products contain such  
97 chemical, shall provide a Disclosure Notification Report to the  
98 Commissioner of Public Health in such form and in such manner as  
99 said commissioner prescribes, that such manufacturer's product  
100 contains an intentionally added priority chemical. Such report shall be  
101 filed biennially and shall include: (1) The name of the priority chemical  
102 and its Chemical Abstracts Service registry number; (2) a brief  
103 description of the product or product component containing the  
104 priority chemical; (3) a description of the function of the priority  
105 chemical in the product; (4) the amount of the priority chemical in the  
106 product; (5) the name, address and contact information for the  
107 manufacturer; and (6) such other information as the commissioner may  
108 require. The commissioner may authorize a manufacturer to submit  
109 such report to the interstate chemicals clearinghouse, as described in  
110 section 6 of this act.

111 Sec. 4. (NEW) (*Effective from passage*) (a) Not later than two years  
112 after a chemical is placed on the list of priority chemicals in accordance  
113 with subsection (a) of section 2 of this act, a manufacturer that  
114 manufactures children's products containing a priority chemical shall  
115 submit a Product Innovation Plan to the Commissioner of Public

116 Health. The plan shall include: (1) A timeframe for removal of the  
117 identified priority chemical from the manufactured children's product;  
118 (2) an affidavit stating that any chemical used to replace the priority  
119 chemical is inherently less hazardous to children's health based on (A)  
120 supporting documentation that the replacement chemical is not (i)  
121 persistent, bioaccumulative and toxic, (ii) very persistent,  
122 bioaccumulative and toxic, (iii) very persistent and toxic, (iv) very  
123 bioaccumulative and toxic, or (v) known or likely to be carcinogenic,  
124 mutagenic, a reproductive or developmental toxicant, neurotoxicant or  
125 endocrine disrupting, or (B) a hazard assessment protocol; or (3) a plan  
126 and timeline acceptable to the commissioner for conducting research to  
127 identify inherently less hazardous substitutes if none currently exist  
128 for specific identified uses.

129 (b) The Commissioner of Public Health may authorize the interstate  
130 chemicals clearinghouse, as described in section 6 of this act, to review  
131 and determine the adequacy of the plan pursuant to subsection (a) of  
132 this section.

133 (c) The plan shall be approved by the commissioner if it meets the  
134 criteria specified in subsection (a) of this section and meets a three-year  
135 phase-out timeframe. If the plan fails to meet such criteria, the  
136 commissioner shall make recommendations to the General Assembly  
137 regarding (1) product labeling, (2) forfeiture of sales of that  
138 manufacturer's children's products in the state, or (3) civil penalties to  
139 be collected by the Department of Public Health.

140 Sec. 5. (NEW) (*Effective from passage*) A manufacturer that sells  
141 children's products containing a priority chemical in the state may  
142 consult with the Chemical Innovations Institute, as described in section  
143 22a-903 of the general statutes, or other green chemistry research  
144 institution in the state to identify a replacement chemical that is  
145 inherently less hazardous to children's health, provided the  
146 identification of such replacement chemical includes supporting  
147 documentation pursuant to subparagraph (A) of subdivision (2) of  
148 subsection (a) of section 4 of this act.

149       Sec. 6. (NEW) (*Effective from passage*) The Commissioner of Public  
150 Health may, within available appropriations, participate in an  
151 interstate chemicals clearinghouse to (1) classify chemicals in children's  
152 products into one of the following four categories: (A) High concern,  
153 (B) moderate concern, (C) low concern, or (D) unknown concern; (2)  
154 organize and manage available data on chemicals, including, but not  
155 limited to, information on uses, hazards and environmental concerns  
156 associated with chemicals; (3) produce and inventory information on  
157 safer alternatives for specific uses of chemicals and model policies and  
158 programs related to such alternatives; (4) provide technical assistance  
159 to businesses and consumers relating to safer chemicals; and (5)  
160 perform other activities related to this section.

161       Sec. 7. (NEW) (*Effective from passage*) Not later than January 15, 2015,  
162 and biennially thereafter, the Commissioner of Public Health shall  
163 report to the joint standing committee of the General Assembly  
164 having cognizance of matters relating to public health on the status of  
165 the list of priority chemicals, created and maintained in accordance  
166 with section 2 of this act, and the number of (1) manufacturers that  
167 have submitted disclosure notification reports in the previous  
168 biennium, (2) manufacturers in compliance with the product  
169 innovation plans, and (3) products, users and manufacturers, if any,  
170 that the commissioner has exempted from the provisions of sections 3  
171 to 5, inclusive, of this act.

172       Sec. 8. (NEW) (*Effective from passage*) The Commissioner of Public  
173 Health is authorized to assess a fee payable by the manufacturer or  
174 such manufacturer's trade association to cover the department's  
175 reasonable costs in processing and managing the information collected  
176 upon submission of a disclosure notification report and a product  
177 innovation plan. The commissioner shall not assess a fee on a  
178 manufacturer that submits a product innovation plan within two years  
179 after the date required and certifies in such plan that the priority  
180 chemical is removed without any substitution of another chemical.

181       Sec. 9. Section 21a-348 of the general statutes is repealed. (*Effective*

182 *from passage)*

This act shall take effect as follows and shall amend the following sections:		
Section 1	<i>from passage</i>	New section
Sec. 2	<i>from passage</i>	New section
Sec. 3	<i>from passage</i>	New section
Sec. 4	<i>from passage</i>	New section
Sec. 5	<i>from passage</i>	New section
Sec. 6	<i>from passage</i>	New section
Sec. 7	<i>from passage</i>	New section
Sec. 8	<i>from passage</i>	New section
Sec. 9	<i>from passage</i>	Repealer section

**Statement of Legislative Commissioners:**

In section 2(a), "human" was deleted for clarity and consistency; in section 3, "whose product contains such chemical" was added for clarity and consistency; in section 5, "pursuant to the criteria set forth in subdivisions (1) and (2) of subsection (a) of section 4 of this act" was changed to "to children's health, provided the identification of such replacement chemical includes supporting documentation pursuant to subparagraph (A) of subdivision (2) of subsection (a) of section 4 of this act" for clarity; and in section 8, technical revisions were made for clarity and consistency.

**KID**      *Joint Favorable Subst.*
